Website Proposal

Your digital presence, built with precision and passion

Our vision for the site

- A modern, dynamic website with a style
- A distinctive design that reflects the brand's identity
- A simple and clear user experience
- Smooth motion adds a professional touch

"OUR GOAL IS FOR THE WEBSITE TO REFLECT THE BRAND'S LEVEL OF QUALITY AND BE AN EFFECTIVE MARKETING TOOL, NOT JUST A FACADE."

Development Plan & Timeline

Feature	Time
Discovery & Planning	2-3 days
UX/UI Design	6-8 days
Website Pages	14-17 days
Dashboard	10-12 days
Deployment	2-4 days
Testing	2-4 days
Total	**36-48 days**

UX/UI Design

- Study the reference and determine the appropriate style.
- Determine the colors, fonts, and visual identity of the site.
- Create a site map and page flow.
- Design the user interface (homepage + other pages)

What will you receive?

- View the full website design in Figma/Prototype format.
- Ability to revise the design twice before finalizing.

Website Frontend

- Converting designs into interactive pages.
- Adding needed animations and transitions.
- Make the website responsive to mobile view.
- Preparing a demo version of the site on a temporary domain for preview.

What will you receive?

- An online demo version of the site (without a control panel yet).
- Ability to test browsing and interaction in real time.

Dashboard

- Connect the site to a control panel (CMS) to easily manage content.
- CRUD (Create - Read - Update - Delete) operations on content.
- Customizable actions as needed.
- Set up the database and link it to interfaces.
- Add communication features, forms, tables, charts and interactive forms.

What will you receive?

- A complete control panel for managing pages and content.
- A hands-on experience for adding and editing data.

(Advanced Motion & Interactions)

- Implementing dynamic animations (Scroll Animations, Hover Effects, Loading Motion).
- Improving the user experience in terms of fluidity and transitions.

What will you receive?

- A final version of the website with a fully interactive experience.
- A short demo video to showcase the motion before delivery.

(Testing & Optimization)

- Complete website review across multiple devices (responsive).
- Speed optimization .
- Address any customer feedback.

What will you receive?

- A website ready for deployment with 100% performance.
- A short technical report detailing what was tested and the improvements made.

(Deploy & Launch)

- buy the hosting and setup the security policies and rules.
- setup an configure the required packages and libraries.
- Uploading the website to the main server and domain and also for "subdomain" for development and testing.
- Submitting all data and access.

What will the you receive?

- Live website on server.
- All login credentials (Hosting + CMS + Email).
- Free technical support for 60 days after delivery.

Total	**42,000 - 49,000 EGP**

Prices are subject to confirmation after approval of the final design and pages.

Payment Terms

25% down payment upon signing the contract and commencing work.
50% after final design approval (UI/UX & Prototype).
25% upon delivery before transferring to the production server or upon launch.

Additional Notes:

- Any additional requirements outside the scope (additional pages, new features, custom integrations) will be priced as extra.
- Included Revisions: Up to two revisions during the design phase. Additional revisions are charged at an hourly rate or as an add-on.

Why Us

- We craft websites that move, engage, and convert visitors.
- Pixel-perfect design brought to life with smooth, modern animations.
- Blazing-fast performance without sacrificing visual creativity or interactivity.
- Your brand’s colors, tone, and energy drive every interaction.
- We build intuitive dashboards that turn data into marketing insights.
- Mobile-first, responsive design that looks stunning on every device.
- Clean, documented code—easy for your team to manage later.
- Transparent process with weekly updates and collaborative feedback loops.
- We optimize for SEO, accessibility, and real-world user experience.
- We don’t just meet expectations—we redefine them together.

THANK YOU
